Work Experience

2006 – Present

Hill Architects

CAD Manager: created standards manual, block management, menu systems, training videos, custom LISP, drawing conversion

Project manager: managed typically 30 to 70 projects at any given time and drafters

CAD drafter: produced own drawings

Renderer: 2d and 3d rendering projects of all sizes

Projects included assisted living facilities, senior housing cottages and resort site designs both very large and medium sized.

2004 – Present

Ken O'Connor Design

CAD drafter: Responsible for all CAD drafting for very high end custom residential projects in and around Sonoma and Napa Counties in Northern California

Renderer: rendered residential designs at request of city when no home designs were as yet created.

1998 – 2005

Tierney / Figueiredo Architects, AIA

Systems Manager: Hardware maintenance, software upgrades, symbols library, training seminars, pull down menus, standards book

Head CAD Drafter

Projects included TI, residential, public, commercial, restoration and hospitality
